AGRICULTURAL STATISTICS, IRELAND, 1892.

TO
HIS EXCELLENCY ROBERT OFFLEY ASHBURTON,
BARON HOUGHTON,
&c., &c., &c.

LORD LIEUTENANT GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honour to submit the Annual General Abstracts, which give, by Counties and Provinces, the acreage under Crops, and the number and description of Live Stock in 1892.

The materials necessary for the compilation of these Statistics were obtained by members of the Royal Irish Constabulary and Metropolitan Police, who discharged this important duty with zeal and efficiency.

The Abstracts have been carefully compiled from summaries made by the Enumerators, and may in some slight degree differ from the revised figures which will be subsequently published.

Notes, furnished to me by the District Inspectors of the Royal Irish Constabulary (who acted as Superintendents of Enumeration), on the state of the various crops in their districts at the time of the collection of the Returns, will be found at pp. 20-37.

The following Table shows, by Provinces, the total extent (in statute acres), under Crops, Grass, Fallow, Woods and Plantations, Turf Bog, Marsh, Barren Mountain Land, Water, Roads, Fences, &c., in 1891 and 1892:—
